1 Introduction

The Education Review Office (ERO) in collaboration with whānau, leaders, kaimahi and their communities develop evaluation insights that foster accountability and improvement, identify progress and build evaluation capability. This report reflects their systems, operations and management practices. ERO reports provide important information for hapū and iwi.

2 Context

Otaki School is located between Tararua and Ōtaki beach. The Ōtaki River and Mangapouri Stream are viewed as providing protection and giving the school whānau life. The whānau are guided and uplifted by the tikanga of Ngāti Raukawa ki te Tonga. The school offers bilingual and immersion Māori education to tamariki in Years 1-8. A new leadership team, including the principal and new staff, have been appointed since ERO's November 2018 review.

School leaders approached Te Uepū ā-Motu, ERO's Review and Improvement Services Māori, in 2022 to request an evaluation of their school due to their unique curriculum and context.

3 Evaluation Focus

ERO and the school agreed to evaluate the effectiveness of Mana Whakahaere practices in creating conditions that promote 'kia Ōtaki te tū' in tamariki, and developed the following evaluative question:

How well do tamariki demonstrate kia Ōtaki te tū?

Tamariki have opportunities to demonstrate kia Ōtaki te tū as an integral part of their schooling experience.

4 Findings - Mana Whakahaere

Whānau aspirations for their tamariki to learn in an environment rich in te reo Māori, tikanga Māori, and for them to be steeped in Raukawatanga are being realised. The school whānau and wider community came together during Mātariki 2022 to reaffirm the aspirations held for tamariki to learn through bilingual and immersion Māori education. Two distinct learning pathways are planned and implemented to support this focus. Tamariki develop and learn in a community where te reo Māori is spoken.

Whanaungatanga and manaakitanga are evident in the way whānau and manuhiri are welcomed to the school. Daily karakia and panui allow opportunities for tamariki to lead, and for tuakana teina relationships. Waiata strengthens tamariki connections to their kura and the rohe. Kura values are expressed and affirmed through waiata and kōreo tuku iho. Adults are strong role models of te reo and tikanga Māori and interactions are respectful and reciprocal. Tamariki express kia rangatira ai te tū.

Whanaungatanga practices include whānau being embraced in the life of the school through an open-door policy. Whānau can find the school's strategic plan on the informative school website. The engaging Facebook page contains comprehensive information about the school's culture, context, happenings and information about how whānau can be involved in their child's learning and the life of the school.

Kia Ōtaki te tū is at the forefront of decision-making. The new board of trustees bring a range of skills and knowledge to their role. They work collaboratively to enact the school's vision that espouses 'Ko ā tātou tamariki ngā rangatira ō āpōpō' - 'learners today, leaders tomorrow'. The strategic plan is future focused and strategic goals are underpinned by Mason Durie's *Te Whare Tapa Wha*. Regular reports to trustees share tamariki experiences and activities that promote their holistic development and connect them to valued learning outcomes.

Trustees also receive regular reports about tamariki attendance trends and patterns, and the strategies in place to increase participation. Positive Behaviours for Learning (PB4L) findings are also reported.

Achievement data is also shared with trustees who, if necessary, request further information to build their understanding and knowledge of tamariki progress and achievement schoolwide. Tamariki wellbeing, sense of belonging and identity is nurtured.

The school's localised curriculum continues to evolve with a focus on te reo Māori and kia Ōtaki te tū. School leaders work collaboratively to achieve the school's goals and aims. Deliberate appointments and recruiting kaiako and kaimahi with te reo Māori, and who are knowledgeable in Raukawatanga support the school to sustain and continually grow their capacity.

Professional learning and development for leaders, kaiako and kaimahi align to the school's identified development needs and plans. Noho marae are instrumental in supporting kaiako to build their knowledge and understanding of Raukawatanga, and their ability to nurture 'Kia Ōtaki te tū' in tamariki.

Key Next Steps

A professional growth cycle for staff, is in the very early stages of implementation. The school is being supported by external advisors. Although leaders and kaiako have also been building their data literacy and focusing on improving the use of assessment information to guide teaching and learning for some time, this practice continues to require improvement. Trustees and leaders should consider improving targets to include more explicit academic goal setting. Currently these lack rigour, they do not identify or focus enough on improving outcomes for learners where disparities occur or set high expectations for accelerating the progress of those tamariki who require this. To assist all tamariki to attain their educational potential in literacy and mathematics, leaders and kaiako should prioritise:

- reviewing and improving assessment practices schoolwide
- improving target setting
- partnerships for learning with whānau of tamariki whose learning needs acceleration
- monitoring and reporting the progress and achievement of tamariki at risk in clear and understandable language to their whānau and trustees.

5 Assurance on Legal Requirement

During the evaluation, ERO checked at the following areas:

- emotional safety of students (including prevention of bullying and sexual harassment)
- physical safety of students
- teacher registration
- processes for appointing staff
- stand-downs, suspensions, expulsions and exclusions
- attendance
- school policies in relation to meeting the requirements of the Children's Act 2014.

Trustees attested to taking all reasonable steps to meet their legislative requirements. ERO will verify this during the Mana Tamariki school evaluation.

6 Recommendation

ERO recommends that the trustees and the school's senior leadership team develop and implement a plan to address the key next steps identified in this report.
